Attn: Chemical Right-to-Know Program

Dear Ms. Horinko:

The DuPont Company requests the re-designation of two chemicals sponsored by DuPont as "No longer HPV". The chemicals are Cyclohexane, oxidized, non-volatile residue, CAS# 68411-76-7 and Nickel, bis[(cyano-C)triphenylborato(1-N)]bis(hexanedinitrile-N,N'), CAS# 83864-02-2. DuPont no longer manufactures either of these two chemicals and we do not import any quantities of the two chemicals. It is our understanding that no other company manufactures either of the two chemicals.

For the reasons listed above, DuPont requests that these two chemicals be assigned an indicator "5" (No longer HPV), on the EPA HPV list, that DuPont's name be removed as sponsor, and that the chemicals be removed from consideration for any HPV-related test rules.

Please contact me at (302) 773-0920 if you have any questions regarding this matter.

Sincerely Yours,

Edwin L. Mongan, III

Subject: Isophthaloyl Chloride

08/04/2004 12:20 PM

Annette,

Per our phone conversation today, this note confirms that in our letter of July 16, 2003 we used an incorrect CAS number (99-63-9) in reference to the chemical isophthaloyl chloride. The correct CAS number for this chemical is 99-63-8. Please let me know if you have any questions.

Thank you.

Edwin Mongan
DuPont Company

Attn: Chemical Right-to-Know Program

Dear Ms. Horinko:

The DuPont Company wishes to inform the US EPA of our intent to fulfill our HPV commitment for the chemical, Isophthaloyl Chloride, CAS# 99639, through the ICCA HPV program. Please remove DuPont as a sponsor for this chemical under the US HPV program and add this chemical to the list of DuPont's ICCA HPV commitments.

Please contact me at (302) 773-0920 if you have any questions regarding this matter.

Sincerely Yours,

Edwin L. Mongan, III
